  - Cottage Hospital telehealth and GVCH testing
  - After hours care

### Notes

- Student Health is not currently testing asymptomatic individuals. Testing for asymptomatic individuals is available through the Santa Barbara County Public Health Department. To find out more about the process please click [here](#). To sign up for community testing please click [here](#). Testing should be free through the County testing sites.

- Testing is also available through several clinics in Santa Barbara, including the Sansum Urgent Care, the Santa Barbara Neighborhood clinics, the Santa Barbara County Clinics, and several private physicians in Santa Barbara. Testing is also available through Cottage Hospital. These options require a visit with a provider in order for testing to be done.

- If you do develop symptoms or have a known, **confirmed** exposure, please call Student Health at 805-893-7129 to discuss your symptoms and testing options.

- If you experience any difficulty breathing or shortness of breath, persistent pain or pressure in the chest, new confusion, or bluish lips or face please seek immediate medical care.
