TRAVELING DURING COVID

Prior to Arrival:
● For the two weeks prior to your arrival at UCSB you will be required to complete a daily symptom and exposure survey

Upon Arrival:
● You will need a COVID-19 test within 48 hours of your arrival to the Santa Barbara area. You can schedule your test here:
  ○ On Campus Testing
  ○ Santa Barbara County Public Health Testing
● You will then begin a 7-day sequestration period (14 days if you are arriving from out of the state or out of the country)
  ○ Wear a mask within your residential unit, except when in your personal bedroom or in the shower
  ○ Maintain physical distancing within your residential unit
    ■ Set up a kitchen schedule so residents do not occupy the kitchen at the same time
  ○ Frequently wash your hands
  ○ Wipe down all surfaces in all common areas after each use with appropriate cleaners
  ○ Undergo additional COVID-19 testing 7 days after arrival
● If both tests are negative and you have completed your sequestration period:
  ○ You may resume normal activities, including approved on-campus classes, labs and work
  ○ Wear a face covering at all times when outside of your residential unit, except while eating or exercising. Maintain physical distancing at all times.
  ○ Continue to monitor for symptoms. If symptoms develop, remain in your bedroom and contact the COVID response team.
    ■ 805-893-3113 or email ucsb-covid19@ucsb.edu

There are currently no restrictions for entering California if you are coming from another state in the U.S. However, this could quickly change and you should continue to look for any updates prior to your arrival in the Santa Barbara area.

The federal government has placed restrictions on certain international travelers. With specific exceptions, foreign nationals who visited certain countries during the past 14 days are prohibited from entering the United States. Click here for details.

All travelers should take safety precautions when considering traveling.
● Don’t travel if you have been sick in the past 14 days or if you live with someone who has COVID-19.
● Don’t travel with someone who is sick
● Wear a face covering in public
● Wash your hands frequently
• Maintain a **6-foot distance** from anyone outside of your household

**Regional Stay at Home Order**
